

Our Comfort Keepers®

There is something special about our Care Workers... they are Comfort Keepers®!

Every Comfort Keeper® is required to pass a three stage recruitment process and you can be sure that they are:

- Inducted, trained and assessed on-going
- Screened with a fully-enhanced DBS check and 3 professional references
- Matched to your loved ones' needs
- Caring, compassionate and attentive

Our Story

The Comfort Keepers® story began over 15 years ago when Kris Clum, a nurse in home healthcare, discovered that her patients often needed help with a few things around the home. Simple gestures such as bringing a pint of milk or spending some time chatting with the patient brought so much happiness to her client's day.

Kris knew that helping her patients in this way was going beyond a nurse's call of duty, even putting herself at risk, but she had discovered a real need. Determined to help her patients and many others, Kris and her husband started Comfort Keepers® in 1997.

Today Comfort Keepers® has over 700 offices in 6 countries around the world. Comfort Keepers® is a Sodexo Group Company.

Our Approach to Care

We believe in Interactive Caregiving™: We do things with your loved one, not just for them. Focusing on your needs, we help our clients have brighter, more fulfilling lives while keeping the family connected on what's happening with their loved one.

"Cat has been wonderful looking after me. She has given me the strength to be able to manage on my own. I would highly recommend her and Comfort Keepers to my friends. Thank you."
